

SOSecure Swim Diaper

Adult

This reusable swim brief (undergarment, also known as a Swim Diaper) is designed for adults dealing with incontinence. This product was reviewed by the National Association for Continence (NAFC) for inclusion in their Resource Guide.

The garment is designed to be worn next-to-skin under a swim suit. It is intended for bowel containment; however, it will protect a certain amount against urinary leakage. It provides plenty of time to get from the change room to the pool or beach. It is important to purchase the right size, and keep it as snug as possible using the adjustable closures.

Although designed for swimming, it can be used as a cover for disposable or cloth diapers.

The Swim Diaper's feature include:

- High tech stretch polyurethane fabric with soft fleece lining
- Elastic waist and legs for added security
- Velcro closure with fully adjustable sizing that opens up flat, for ease in dressing, and great fit regardless of body shape.

Sizing

This garment is unisex. Please order based on hip or waist measurement, whichever is larger.
